

**WELCOME TO JULIAN NATURAL WONDERFEST**  
**JESS MARTIN PARK, AUGUST 11, 2018, FROM 3-11PM**  
**FREE SHUTTLE FROM LIBRARY AND TOWN HALL**

**VISIT JULIAN DARK SKY NETWORK EXHIBIT!**

Residents and visitors agree – the starry, dark night sky here in Julian is **unforgettable!** Did you know we are part of only one percent of the US population that can still see the Milky Way at night? The Julian Dark Sky Network is committed to preserving our beautiful night sky that also affects our environment, our local animals, the Julian community **and** all the visitors to our amazing back-country.

At Wonderfest, you will get to enjoy a fabulous star party with many amateur astronomers on the field at Jess Martin park with telescopes and binoculars. It's the peak of the **Perseid meteor shower** so plan to join us there for this unforgettable show. Come by our exhibitor booth and learn more about preserving our dark skies. Learn how to use a planisphere to help you navigate the night sky. And bring your camera and tripod so our nightscape photographers can help you capture these amazing memories ☺
